Abstract

150 (150-250 words)

Provide a concise summary of the study, including

- Background or context
- Purpose of the study
- Methodology
- Key findings
- Implications

Avoid citations in the abstract.

Keywords: (3–6 keywords, in alphabetical order, separated by commas)

Example: assessment, curriculum, innovation, pedagogy

Introduction

Provide a clear overview of the study:

- Background and context
- Statement of the problem
- Research objectives or questions
- Significance of the study
- Scope and limitations

Literature Review

Discuss relevant theories, models, and previous studies:

- Conceptual framework (if applicable)
- Related studies (local and international)
- Research gaps addressed by the study

Methodology

Clearly describe how the study was conducted:

- Research design (e.g., qualitative, quantitative, mixed-methods)
- Participants/respondents
- Sampling technique
- Instruments used (include validity and reliability if applicable)
- Data collection procedures
- Data analysis techniques
- Ethical considerations

Results and Discussions.

Present and interpret findings:

- Use tables, figures, and charts where appropriate
- Explain key results clearly
- Relate findings to research questions
- Compare with previous studies
- Highlight significant patterns or trends

Conclusion and Recommendations

Summarize key insights:

- Major findings
- Implications for practice, policy, or future research
- Specific, actionable recommendations

Conflict of interest

Declare any potential conflicts of interest.

(If none, state: "The authors declare no conflict of interest.")

Acknowledgments

Recognize contributions from individuals, institutions, or funding bodies that are not listed as authors.

References

- Follow APA 7th Edition format strictly
- Ensure all in-text citations appear in the reference list and vice versa
- Arrange alphabetically by authors' surnames
